

# Is Your Child Trying To Tell You Something???

Your child could be exhibiting signs of a stressed or compromised nervous system.

We want to help you get your child back! Ask us how we can help today!

Please write a brief paragraph about your child and any concerns you may have regarding their health or how it interferes with daily quality of life:

ANXIETY & RECURRENT THOUGHTS - HIS LATEST RECURRING THOUGHT IS THE POSSIBILITY OF ME NOT PICKING HIM UP AT AFTER SCHOOL CARE OR LEAVING A SITUATION/PLACE WITHOUT HIM. HE WILL OBSESS ABOUT THIS UNTIL A NEW CONCERN COMES ALONG. HE HAS ALWAYS CHEWED HIS NAILS UNTIL HE RECENTLY HAD CROWN PUT ON SOME OF HIS TEETH. IF HE HAS A SCAB HE WILL PICK AT IT FOR A LONG

TIME, PREVENTING IT FROM HEALING WELL  
WE HAVE ALWAYS FELT HE HAS ALLERGIES BUT DR. MACGREGOR  
FELT DIFFERENTLY. HENCE, THE RUNNY NOSE.

EXECUTIVE FUNCTION - HE HAS DIFFICULTY WITH MORE THAN ONE  
TASK GOING ON AT A TIME, LOOSES FOCUS. (SO DO I) ☺

(CONCENTRATING - PROCESSING & DISRUPTING ALL GO TOGETHER.)
